Detail-oriented Frontend Developer with expertise in **Nextjs**, **Vue Js**, **Typescript**, **Javascript**, **Tailwind CSS**, skilled in translating design concepts into user-friendly interfaces, collaborating with cross-functional teams, and dedicated to delivering high-quality, scalable web solutions, holding a Bachelor's in Computer Engineering and possessing excellent interpersonal skills. I am fluent in spoken and written English.

RECENT PROFESSIONAL EXPERIENCE

WEESHR APP   Remote   *Dec* 2022 – Present

Frontend Developer

- Collaborated with UX/UI designers to create responsive, visually appealing user interfaces and partnered with backend developers to seamlessly integrate frontend components with server-side logic.

- Built the **Next.js-based client-facing application** using **TypeScript** and **SCADCN UI**, ensuring consistent design and enhanced user experiences.

- Developed the **Vue.js-based admin dashboard** with **TypeScript**, leveraging **SCADCN UI** for streamlined UI components and improved maintainability.

- Integrated and optimized APIs to enable seamless communication between the frontend and backend, ensuring efficient data fetching and state management.

- Adopted **Test-Driven Development (TDD)** practices using tools like Jest, reducing debugging time by 40% and improving overall development efficiency.

- Delivered solutions adhering to modern web standards, enhancing cross-browser compatibility and accessibility.

Federal Ministry of Mines and steels Federal Secretariat Ikolaba Oyo state.   *April 2023 - March 2024*

IT Expert

- Installation and configuration of computer systems, ensuring seamless functionality and user satisfaction.
- Responded promptly to IT support requests, diagnosing and resolving a wide range of software, networking, and hardware issues for diverse clientele.
- Successfully troubleshooted and repaired various computer systems including laptops, servers, desktops, and printers, maintaining detailed records of all interventions.
- Provided expert technical support on-site and via remote-access systems, consistently achieving high levels of customer satisfaction and problem resolution.

- Managed the troubleshooting of Windows, and MS-Office related issues, implementing effective solutions to optimize system performance.
- Conducted regular software update checks for antivirus, Windows, and MS-Office applications, ensuring system security and functionality.
- Configured and managed firewalls, implementing and enforcing security policies to safeguard network integrity.
- Facilitated email configuration and troubleshooting, optimizing communication systems for efficiency and reliability.
- Conducted regular checks on internet links and structural cables to identify and resolve connectivity issues promptly.
- Coordinated with the inverter team to escalate and resolve issues related to inverters and batteries, ensuring uninterrupted power supply.
- Implemented and managed network access controls, authorizing only approved personnel for network access following established protocols.
- Executed regular preventive and corrective maintenance on network systems including switches, wireless APs, and firewalls, enhancing system reliability and performance.
- Upheld data security standards, ensuring the security of data, network access, and backup systems at all times.
- Managed IT asset inventory, maintaining detailed records of laptops, keyboards, mice, chargers, and other equipment.
- Contributed to the development of comprehensive asset management and information security control structures, optimizing resource allocation and security measures.
- Collaborated with IT team members to maintain a clean and organized IT workspace.

Nigeria Airspace Management Agency, Akure Airport (NAMA), Akure Ondo State   **April 2021- Oct 2022**

IT Expert

- Managed the inventory of IT software, tracking usability and obsolescence for proactive maintenance.
- Assisted in documenting and organizing IT procedures, user manuals, and knowledge base articles, enhancing accessibility and understanding.
- Provided support for data backup and recovery procedures, ensuring data integrity and availability.
- Collaborated with the IT team to perform routine system maintenance tasks, including software updates, patch installations, and system monitoring.
- Conducted software inventory audits to ensure compliance and security of IT assets.
- Assisted in organizing and scheduling IT-related meetings, training sessions, and events.
- Contributed to user account management, creating, modifying, and disabling user accounts as needed.
- Participated in IT-related procurement processes, obtaining quotes and making purchases.
- Collaborated with IT team members to maintain a clean and organized IT workspace.
- Maintained and monitored CCTV systems, biometric terminals, and VoIP phones, ensuring optimal performance and security.

FUOYE, Ekiti, Nigeria

Frontend Developer - Project   *2022 – 2023*
- Developed a Website for my Project, remote surveillance camera for automated supervision of examination
- Contributed to the development of contemporary and user-friendly interfaces by employing HTML, CSS, and JavaScript and adapted to evolving project specifications and technological advancements to stay informed and align projects with specifications and deadlines.

EDUCATION

FEDERAL UNIVERSITY OYE - EKITI   **Oye-Ekiti State, Nigeria**
Bachelor of Engineering in Computer Engineering   *Sept 2016 – Jan 2024*

CERTIFICATION:

National Youth Service Corps (NYSC)   Oyo-State
2024

TECHNICAL SKILLS

- Frontend Development: Next.js, Vue.js, TypeScript, SCADCN UI, Tailwind CSS
- UI/UX Design Integration: Responsive design, accessible interfaces, component-based architecture
- API Integration: RESTful APIs, backend-frontend communication, state management
- Testing & Debugging: Test-Driven Development (TDD), Jest
- Development Practices: Modular design, performance optimization, scalability
- Version Control: Git, GitHub/GitLab
- IT Administration
- Collaborative Tools (Atlassian, 1Password, Google Workspace)
- Inventory Management
- Documentation and Organization
- Data Backup and Recovery
- System Maintenance
- Software Updates and Patch Installations
- Software Inventory Audits
- User Account Management
- Procurement Processes
- Organizational Skills
- Communication Skills

SOFT SKILLS

- Collaboration with cross-functional teams
- Problem-solving and debugging
- Adaptability to new technologies
- Attention to detail in design and functionality

QUALIFICATIONS:

- **Bachelor's degree in Computer Engineering**
- **Exceptional technical support and query resolution skills**
- **In-depth knowledge of IT software and networks**
- **Ability to determine IT needs and train end-users**
- **Proficiency in IT helpdesk and resolving software**
- **Advanced knowledge of database maintenance and system security**
- **Ability to learn and apply best practices in information security and data protection**
- **Exceptional interpersonal and communication skills**
